

Lunenburg Lake

1000 Marshall Avenue, Victoria, VA 23974

Lunenburg Lake, known by most locals as “the reservoir” provides a location for fishing and boating. Join the many who have relaxed on the shores of Lunenburg Lake. It was originally built just outside of town by the Virginia Railway as a water source for its operations; the company originally envisioned it as a park for the residents. Located at the site is the VFW Hall.

Don't miss out on the great fishing and boating opportunities. Fishing requires a Virginia fishing license and boating in the Lunenburg Lake requires boats with **NO** gas powered motors.

For additional information of Virginia fishing licenses try this link:
