Victoria Police Mission Statement:

The Victoria Police Department is here to serve the citizens of the Town of Victoria. The police department enforces the Town's local code as well as the laws of the Commonwealth of Virginia.

The Victoria Police Department and its officers are constantly working with the community on new and improved ways to educate the community in understanding the law and how the law affects their day-to-day lives.

The safety of not only the citizens of Victoria, but its visitors as well is our number one goal. The officers cannot do this alone, however. Citizens who care about their community, who are brave enough to come forward when they have information of a crime, whether the crime has occurred, is occurring, or may occur, these citizens are the true heroes. Without their help, the job of Victoria's Police Department could not be as effective.
